LETTER FROM THE EDITOR

Monday, June 8th, 2026 at 7:20 PM CST.

Hello Trendy Zine Fans!

It's nice to have you back here for Issue 3.

For everyone who was waiting for this to publish this past Friday, I apologize. I was not feeling well, and haven't been resting well lately. So I put off publishing until this Monday. By putting off the publishing for a few days I learned something. Based on my schedule, it's better for me to publish on Mondays. This will allow me to collect the weekly trends from Saturday to Friday each week, and hopefully get the next issue published on Mondays. There will also be some other changes coming to this publication in near future issues.

So let's get to it . . .

DOMAINS TO EXPLORE

Previously published in Trendy Zine 001, and 002.

You can't build a website directory without having some website domains to list. This is a list of domains I've been collecting since I launched the SURFMAN.co Surf Man Website Directory Project in September 2025. Eventually these will be entered into the official directory. For now they exist in this massive list. Have fun exploring the web.

This list was finalized on Saturday, January 31, 2026 at 2:44 AM CST with 4.3K listings.

Last updated on:

Thursday, May 21st, 2026 at 8:35 AM CST with 15.2K listings.

Some things to note about this domains list:

Some domains will be very familiar to you on the internet. Others may not be to you. Some domains may not be in service any longer. We all know that some websites tend to come and go at a moments notice. I strive to keep this directory as USA-only as possible, however you may find some foreign country websites listed. Also I have no interest in curating religious websites in these listings, but due to the size of these listings, and limited time in my schedule, there may be some listed until I can remove them. Some URLs may be NSFW. Knowing me, some probably are LOL.

DI.FM EDM MUSIC TRACKS

For EDM music fans.

Previously published in Trendy Zine 001.

I have been listening to EDM music on DI.FM for quite some time (since at least 2016), and I have been collecting song and artist information since around 2023. Some of these are shared along with track covers on my X page at x.com/surfmanco.

Here is a combined list of all tracks collected from all genres I've listened on DI.FM to date as of Thursday, May 21, 2026 at 12:56 AM CST.

This list is for those who want an alphabetical list of all of the tracks in one place regardless of genres, while still being able to determine what genre a track is from.

Tracks are listed in this format: artist - song title - genre.

Genre in these listings refers to the specific channel on DI.FM that they were heard on.

The way this list can be useful to you is if you have interest in EDM music, you can use these listings to look up these songs and artists on your favorite music platforms and discover new music favorite, or reconnect with old favorites.

This list will be updated with new tracks, however I can't say when that will be. I usually collect the tracks for several

months and then compile a new list.

1,516 tracks

Note: There may be some duplicates. If I should find any, I will remove them before publishing an updated list.

1. 1st Probject - Shady - (Old School Rave)
2. Bruno Kaufmann - Senses Overload (Extended Mix) - (Deep Progressive Trance)
3. Alienetic - Wish You Were Here - (Future Garage)

- 1516. ZOYA - Gravity (Extended Mix) - (Deep Progressive Trance)

TUMBLR HASHTAGS

According to when my txt file was saved, this list was finalized on 05/20/26.

This list is for die-hard Tumblr users who can use a list of all the weirdness that Tumblr can be. This is one of my newest project additions to Surf Man, so it isn't organized much past this list of over 9,000 entries. Eventually I will expand these listings and organize them better somehow.

These hashtags range across the full spectrum from mild (SFW) to wild (NSFW) to straight up adult content. You will need a Tumblr account with your settings put to where you can view some content. Enjoy!!

UNSPLASH PHOTOGRAPHERS:

SURFMAN.co chooses stock photography images for our site headers, and blog post featured photos that celebrate nature, and the love for living. All of the photography you see across our website comes from Unsplash photographers at UNSPLASH.com and creators who provide extremely beautiful stock photography so that website owners can provide beautiful domains and social media for their visitors. As the owner of SURF MAN, I am grateful to the following people at Unsplash for their contributions to the Unsplash platform that I have used to enhance this project. Without them, this website and directory would be extremely dull looking. Go check out their pages at Unsplash.

Next issue coming soon.

Follow Surf Man on X at <https://x.com/surfmanco> or @surfmanco

Coming up in the next issue:

I could start publishing some photos and art in one of the upcoming issues, but I'm not sure. This zine is already HUMONGOUS as it is. I would like to start including some news in current events at some point. We'll see.

C-ya!

P.S. You may have noticed some of the text is slightly smaller in this issue. My publications have always been designed for reading on large screens (computers, tablets, and the larger size smartphones). I've always tried to use a large font to make it as legible as possible for all, however I'm realizing I may be using fonts that are too large, and could possibly be reduced. This is causing more pages in my publications where there was already going to be hundreds of pages to start with. So I've shrunk the body text and main header text down by one size smaller. Hopefully this will help me to remain within my design requirements, while reducing the number of pages in these publications, and also reducing the amount of page flipping a little bit, and also keep a font size that can be easily read.
